The Permit is not complete until both the Geophysical Activity Completion Report and the Geophysical Processing Completion Report are submitted for each survey acquired under the original permit #. At a minimum, the permittee shall submit the processed data as indicated above; however, the director may request additional data submissions, [as defined in 11AAC 96.210 (6)] as the director determines necessary within the five-year period. The director may also require the resubmission of unreadable or incomplete data.
